Student Dependant Details

Student Name _____ Date of birth _____

Declaration

I declare that:

- (1) I am contributing to the maintenance of the above-named dependant.
- (2) He/she is a full time student at _____
- (3) Proof of full-time study status is attached (eg Student ID card, summary of enrolment).
- (4) He/she is without a partner.
- (5) I will immediately inform Health Partners of any change in the above-named dependant's circumstances.

Signature _____ Date _____

Explanation Notes

- Once a dependant turns 18 he/she is no longer covered under the family membership unless he/she is registered as a student dependant.
- A student dependant must be 18 years and under 25 years of age and undertaking a full-time study workload for a course at a school, college, TAFE or university.
- To ensure continuity of cover a registration form must be completed for each student dependant included on the family membership before the commencement of the new student year.
- The student year commences 1 March and ends 28 February. Dependants must be registered as soon as they turn 18 and again in the new student year to ensure continuity of cover. For example, if Mary Smith turns 18 on 21 December 2008, she will need to be registered for the student year ending 28 February 2009. She will need to be re-registered before 1 March 2009 if she is to continue studying in 2009.
- Proof of full-time study status must be provided. This may include a copy of student ID card, enrolment summary or letter from the institution indicating full-time study for the year.
